

# United States Block | Capability Statement

## "Building a Solid Foundation for Government and Defense Operations"

**Company Overview** United States Block specializes in the manufacture and rapid deployment of high-strength, precast concrete interlocking blocks. Designed for durability and versatility, our "V-Wedge" and "Lego-style" blocks provide immediate solutions for security barriers, containment bins, and soil stabilization. Our proprietary **Quartermaster Logistics System** ensures precision delivery and placement, even in demanding environments.

## Core Competencies

- **Modular Concrete Solutions:** V-Wedge and Interlocking "Lego" blocks for temporary or permanent structures.
- **Security & Defense:** Rapid-deploy barriers for perimeter security and blast protection.
- **Bulk Material Storage:** Specialized bin blocks for salt, gravel, and aggregate containment at public works facilities.
- **Erosion Control:** Heavy-duty retaining wall systems for infrastructure and coastal management.
- **The Quartermaster Logistics:** Full-service transportation and precision delivery.

## Differentiators

- **Mission first Philosophy:** Upfront approach to deadlines and specifications.
- **Precision Engineering:** High-PSI concrete mixes available and designed for extreme weather and heavy-load durability.
- **Integrated Logistics:** Our internal logistics system tracks and manages the delivery from the pour to final placement.
- **Scalability:** Capacity to handle small municipal orders or large-scale federal infrastructure projects.
  
- **Service Area:** Nationwide
- **GPC/GSA Smartpay:** Yes

## NAICS & Product Codes

- **327390 (Primary):** Other Concrete Product Manufacturing
- **423320:** Brick, Stone, and Related Construction Material Wholesalers
- **484220:** Specialized Freight Trucking.
